

Team Name: Confused_trio

Roll Numbers:2019101040,2019101043,2019101032

IPL ER-MODEL:

Corrections We Made:

We clubbed to and from attributes in STAGE into a complex attribute Duration attribute which contains to and from attributes. And nothing else.

Conventions We followed:

We followed all conventions given in text book, we used colours to uniquely identify different Attributes like key ,derived, partial key. And also for weak , self relationship types we used different Colours.

IN THE ER MODEL “t” is “Number of Teams playing in IPL”
